

2020 FLU SHOTS

How can you get your flu shots this year?

In an effort to reduce the risk of a potential exposure to employees Skyline Center will be supporting alternative options for flu shots for employees. All of these options are available within the community and will still result in a **FREE** flu shot for our employees. Please check out the side bar to learn more.

The CDC states that 7.2 million cases of the flu are prevented each year with the flu vaccination. This year, more than ever, we strongly encourage you to get your flu shot to help protect yourself, family and those we serve!

If you have any questions please reach out to Human Resources at 243-4065 ext. 157.

If you have Skyline Insurance you may go to your medical provider or choose one of these below:

Wagner Pharmacy: They accept our insurance and will take part time employees no charge to employee at time of flu shot.

Walgreens: They accept our insurance and part time (PT) employees pay at time of flu shot and then get reimbursed from Skyline.

Jewel Osco: They accept our insurance and PT employees pay at time of flu shot and then get reimbursed by Skyline.

Hy-Vee: They accept our insurance and PT employees pay at time of flu shot and then get reimbursed by Skyline. They are currently offering a drive thru clinic. See hours on Hy-Vee website.

All pharmacies will require a consent form to be completed as time of flu shot. You will also need to provide your insurance information. If your insurance does not cover the cost of flu shot you may request reimbursement from Skyline. Contact Human Resources for further details.
